BALTIMORE, Oct 8, 1845. Election Day and the Weather-Scarcity of News-The Church Quarrels all Settled-Custom House Affairs Theatricals and the Circus -- Mar-

Winter clothing is in demand this morning, the air being chilly and damp, with every appearance of rain. The polls are now open for the election of Councilmen, and should it rain, the vote cast will be unusually small. In some of the Wards the whigs have made no nominations, intending to vote for the Democratic candidates as a means of defeating nativeism. The true, reliable strength of the latter party, will show itself to-day, many of those who voted with them on Wednesday last, having taken a "sober second thought" on the subject, and

Local intelligence is at present unusually dull There is neither murders, riots, robberies, or rascalities to record. Our churches which were at war, have taken my advice, and either carry on their bickerings within doors, or have buried the hatchet. "Old Exeter Street" which had been turned into a bear garden, is now, to all outward appearances, in the bonds of unity and peace, and father Slicer is now filling up his vacant seats with great rapidity. The death of the Rev Mr. Schreiber, of St. Vincent de Paul's Catholic Church, has at last caused a suspension of hostilities there in regard to the dollar and cent war in which they were so carnestly engaged, and indeed there is a seeming quiet apparent on all hands.

The Onderdonkites and the Anti-Onderdonkers in the Episcopal Church, are both crowing over the result of the decision of the New York Conference, each claiming it as favorable to their peculiar views. Quite a happy result, and one which cannot be disputed, as no one in these parts has as yet been able to decide whether their decision was favorable or unfavorable to the Bishop.

Collector Marriott has recently been following the There is neither murders, riots, robberies, or rascal-

to decide whether their decision was favorable or unfavorable to the Bishop.

Collector Marriott has recently been following the plan adopted in the New York Custom House, of creating new offices for the purpose of supplying his friends when there is no old ones to vacate. Three new inspectors have been appointed, and several boatmen, and this at a season of the year when there is no employment scarcely for those that were previously appointed. In filling them he has also violated his promises to Messers. Cloud and Horace Pratt, who were told to keep quiet until the election was over, and they should be provided for. It is now thus, however, that those who have borne the heat and burthen of the battle are cast aside for new comers, personal friends, or relatives. The Collector himself was one of those politicians who only labored when he was a candidate himself, and then always crowned his party with a grand defeat—so much so, that he is called by the wings the great releated. His time is nearly at an end, however, though I learn that H. G. S. Key, Esq declines the appointment on account of the death of his son, whom he intended to leave in charge of his estate in St. Mary's.

Shock and Modey Market—There is better feeling in the stock market, and sales of many of the securities have been made at the quotations. The Mankers—There is very little activity in the market for Howard street flour. Since the recent arrival of foreign news, giving unfavorable in elligence of the crops of Europe, prices have advanced. Small sales are now making at 4.56; a 4.62; for good standard brants, which is the ruling price. Receipt price is unsettled, last sales at \$4.37; with light receipts. Sales of City Mills at \$4.50, early yesterday morning, Since which time \$4.75 has been obtained, which price holders are now asking. Nothing doing in Susquenama or rye flour Grain—An advance has taken place in the price of Wheat. Sales of good to prime Maryland reds at 90 a 94 cents per bushel, and ordinary to good at \$4.30 cents. White wheat, for family flour is worth \$1.63 a \$1.08—We quote Maryland white and yellow corn at 55 a 57 cents, with sales. Maryland rye 62 a 63 cents, and oats \$4.35.

Whisker.—Sales of barrels are now being made at 25 cents, and of hogsheads at 24 cents per gallon. The article is in moderate request.

PHILADELPHIA, Oct. 8, 1845.

The measures resorted to by the judicial authorities to put down fire rioting in this community, are of the most energetic character, and will doubtless be successful. This morning the Court of Quarter Sessions passed sentences upon a number of young men, hitherto of unexceptionable reputation, and related to some of our most respectable families, upon convictions obtained this term of being engaged in the merely impulsive, but dangerous crime of riot. They were sent to prison for terms varying from six months up to two years, and the spectacle of putting them into the prisoners' van and conveying them to t ie place of their confidement, was melancholy and impressive, striking a salutary terror into the hearts of a large concourse of friends and firemen who were present on the occasion. In addition to these convictions, Judge Parsons has proceeded to arrest and bind over to keep the peace the officers and members of the two companies to which these young men were attached, but who could not be shown to have actually participated in that specific riot, and he is taking measures to apply the same remedy to the whole of that portion of the department to which the disorders in our city and districts are at-

which the disorders in our city and districts are attributable.

Thomas Shuster, the man who was under sentence of death for the murder of his wife some two years ago, but who was pardoned by Gov. Porter, was this morning sent to prison for two years for obtaining goods under false pretences.

The Ladies' Bazaar, at the Chinese Museum, for the benefit of the Society of the Academy of Fine Arts, to enable them to re-construct their building burned down last spring, is a brilliant affair, and nightly attracts crowds of visitors. In fact, it is the absorbing amusement and will produce, I should judge, a large sum. It is conducted by the élite of our fashionable society, and the tables are attended by the wives and daughters of our most wealthy and distinguished citizens. Such a display of beauty and taste never before has been witnessed in this city.

The engagement of the French Opera, at the Chestant street Theatre, is drawing to a close, and yet the houses are almost as well filled as on the first night of their appearance. To night, after a comic Vaudeville, the comic opera of "L'Ambassadrice" is performed—to-morrow sight "La Juive." Calve is the decided favorite in this city.

At the Arch, J. R. Scott is performing an engagement with extraordinary success. H's Damon lastinght was rapturously applanded. Both the Chestant and Arch are under the management of Burton, and he has displayed a degree of enterprise and judgment which is not only worthy of, but actually commands the most entire success. He has lately made the addition of one of the most popular and talented actresses of this or any other city, to his already excellent companies. Miss A. Fisher is a great tavorue here, and Mr. B. by securing her services, has done that which adds considerably to the popularity of his houses. He has, heretofore, been deficient in females, but that deficiency has been, by this and one or two other recent additions, fully supplied.

The Wallacks at the Walint are still popular, and The Wallacks at the Walnut are still popular, and

The wallacks at the wallut are still popular, and the splendour of the house still continues to attract the admiration of visitors. The legitimate drains performed in excellent style manages to keep upquite a full attendance, and this house, which is the largest in the city, never presents meagre boxes or

George M. Dallas, Esq., of Philadelphia, Vice President of the United States, arrived in this city by yesterday's cars.—Washington Union, Oct. 7.

The Fire in Montreal.—We have now to ad that in the course of the day his worship the Mayor took measures to ascertain the extent of the destruction, and it would appear from the returns that about tooty dwelling houses have been burned, besides sheds and outhouses, making a list of about eighty or a hundred buildings destroyed, of which about twenty on Wellington street are large houses of cut stone and brick.

In Wellington street—Trustees of Wesleyan Chapel, Wesleyan Parsonnge, Wm. Spiers, 3 houses, Wm. Kerr, Robert Craik, (bot 8 or 9 cut stone houses) estate Phillips, D. M'Donald; (Mr. M'Downed a large block) Wm. Gibbon, G. Smith.

In Nazareth street—Robert Morton, — Jackson, J. Bell, estate John McKee, Burrey, Mr. McDougall, Phillips, Larkin, Murray.

In Gabriel street—John Turnbull, Thomas Francis, T. B. Wragg's nail factory.

In Prince's street—R. Craik, A. Trudeau, Wm. Spiers, Mr. Donaidson, Geo. Horn.

The following are the names of some of the tenants of burned houses, almost all of whom have lost every thing they had:—

In Queen street—John Ryan, carpenter; — Buck; — Barkie.

Wellington street—Mr. Young, store-keeper: Mr. Gault, (house damaged): Patrick Murphy, Boon, Carr, Barry, Doran, Glenson Carter, (grocer) Brown, Morton.

Prince's street—Connoway, (grocer) Wilson, Mc. THE FIRE IN MONTREAL .- We have now to ad

Carr, Barry, Doran, Cleason Carter, (grocer) Brown, Morton.

Prince's street—Connoway, (grocer) Wilson, McQuiggin, Powers, Dooian, Davis.

Many of the houses were occupied by the poorer class of people, who although they do lose what the rich would think but little, yet lose their all. It will require no appeal on our part to recommend them to the best sympathies of a humane community.

We have heard of the following insurances effected at the offices undermentioned:

Insurances at the Montreal Insurance Company.

Heavy Defalcation.—We are pained to learn that Russell Dean, of the firm of Henry Dean & Co., No. SI Quincy Market, has abstracted the amount of about \$30,000 from the funds of the partnership, and left the city on Saturday last. We mention the matter, as it is now, the tropic of comment with a large portion of the public, and because the remaining partner has openly alluded to the affair. It is not supposed that M. R. Dean has gene with any considerable portion at of the amount, but that he has, by an improper course of living and dissipation wasted it. He has recently borrowed various sums from market dealers and others, and gave in return the memorandum checks of the firm, which of course were left unpaid. Suspicions have been rile recently, and on Saturday he left the city. His partner, it is said, will be oliged from this great loss, to close his business. Mr. R. Dean, has a wife and one child.—Boston Times, Oct. 8.

Mormon Affairs.—From Hancock County, we received but little information yesterday. The Boreas reports the arrival of Gen. Hardin at Carnage, and the concentration of troops at that point. His instructions are said to be of a very plenary character—to put an end to the dissentions at all hazards. One company of volunteers from Quincy went up by land to Carthage on Saturday, and another in the Boreas on the same day. A fight was anticipated on Saturday night, between a party of anti-Mormons, selected for the purpose, and some of Backenstos' posse, who were said to be out on one of their Mormon marauding excursions. But we give very little credence to this report.—St. Louis Republican, Sept. 30.

Light House at \$7 \times George's, Beamuda.—Captain Joseph Shaw, of the brig Jacinth, which vessel arrived at \$1 \times George's on the 19th full from Eastport, Me, say that "in standurg in to make the land, he perceived what at first sight he took to be a sail, but on closer observation, and it occurring to him that he had heard that a light house had been, or was being built, he went to the masthead and then saw the land; and continued on under the impression that the light house was finished and lighted, until he saw a light, which must have here in some dwelling house." Captain Shaw computes that the light house at its present elevation, (only about two-thirds its intended height) can be seen ten miles Inther off than the land, and speaks highly of its ultimate utility for the preservation of life and property.
